

SHUNT ROTARY FLOW METER CMLFZB SERIES

This flow meter is a kind of direct reading flow meter. Because of simple structure, small cubage and light weight, it is an ideal measuring instrument to measure heavy flow. Combine with metal tube float flow meter can increase working pressure. Their performance is reliable.

MODELS and PARAMETER

Model	Diameter of Main Pipe	Max.Volume Flow m ³ /h	Accuracy	Liquid		Dimension (mm)			
		Differential Pressure Limit 60kPa		Temp. (°C)	Pressure Mpa	A	B	C	D
CMLZFB-50	50	23	2.54	0~120	≤1.0	690	260	135	160
CMLZFB-80	80	60							195
CMLZFB-100	100	100							230
CMLZFB-150	150	225							300
CMLZFB-200	200	400							360
CMLZFB-250	250	650							425
CMLZFB-300	300	900							485

Connection and Mounting
